### Tips for the Stout.

While her slender sisters are being sartorially catered to so satisfactorily, and their lines studied and complimented, the poor woman to whom nature has been too generous in the matter of avoirdupois is obliged to work out her own salvation where her clothes are concerned, or trust to her dressmaker to "adapt" to her something originally intended for a woman half her size. Usually in the adapting so much of style and cut is lost as to render the result anything but a thing of beauty. Truly, a gown, of all things, should be built for the type of woman by whom it is meant to be worn.—Chicago Inter Ocean.

Use only what you can comfortably afford in good quality and ample quantity.

Let your home appear bright and sunny. It is not easy to be unpleasant in a cheerful room.

A certain formality is necessary to save everyday life from triviality and freedom from looseness.

Amateur Teacher-Authors.

Originality and initiative on the part of the teacher are now at a premium. Not only do young lady teachers compile elaborate history lectures of doubtful quality in preference to following a good text-book, but it has been urged by good authorities that every teacher should construct his own syllabus of geometry.—Educational Times.

### Cured Consumption

Mrs. W. B. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and \$1.00. At Peoples drug store. dw

### HOUSEWIVES' HANDS.

A Few Simple Rules If Followed Will  
Keep the Busiest Workers'  
Hands Soft and White.

A few moments' attention each day, and a few more moments once a week, given to the hands of the woman who does her own work will rescue them from unloveliness and save them from discomfort. Dishwater does not spoil, nor housework mar, necessarily, and intelligent care can keep the housekeeper's hands lady-fine. First, use a stiff scrubbing brush. They are better than the finer, more expensive brushes. Second, with scissors and file keep the nails curved to the finger; don't let them grow long or pointed. An orange stick helps to keep the skin around the nails free and even, and a small box of pink nail powder lasts a long time, and greatly improves the color and polish. A half-squeezed lemon is a fine bleacher for the finger-tips, and pumice stone easily rubs off ink and other discolorations from the flesh. For burns and bruises use first a healing salve—camphor ice is good—then a bit of plaster or glove-finger for protection. Kid or rubber gloves are a protection when sweeping and dusting, and dish mops save the hands, but the best of all is the stiff scrubbing brush and soap and water used vigorously and often.—American Queen.
